

MY 35: Make it your road

The I-35 Citizen Committees want to hear from you on their proposed road and rail solutions for the I-35 corridor. These committees are developing MY 35, a citizens' plan for I-35 guided by citizen input and local needs. After public input, the committees will develop a blueprint for the I-35 corridor and present it to state transportation leaders.

Come to a workshop or check out www.MY35.org.
